Montevideo

ABOUT ME I'm a Programmer Analyst with experience developing several software projects. I graduated in April 2023 and since then I've been working on improving my knowledge with online courses. I'm currently studying Game Art and Design as I want to become a Game Designer, but that doesn't stop me from focusing on my work. My main programming skills are Microsoft SQL Server, Railway, Render, PostgreSQL, ExpressJS, Visual Studio Code, Node JS, React JS, C#, JavaScript, HTML, CSS, GIT, GitHub, Tailwind, Cloudinary, Bootstrap, and GeneXus. I'm always willing to learn anything to collaborate and be useful to the team.

PROYECTS
